This issue of Natural Medicine has a 5 page spread on Home Remedies for erectile Dysfunction.

It starts the list of 16 home remedies with;

#1 - Boron:

Boron is one of the most potent natural treatments for erectile dysfunction you'll ever come across.

#2 - ACV

#3 - Magnesium - works in conjunction with Boron. You definitely need both of these minerals together to effectively treat impotence....

.....This is yet another nutrient that has been virtually wiped out of our food crops and soils so supplementation is essential!

An easy and cheap way to do this is with a transdermal magnesium spray

Lo & Behold our Magnesium has....
1% Boron

But Wait - there's more:

Regardless of the lack of any scientific credibility, the stage has been set for borax and boric acid to be globally removed from public sale at short or no notice. Even low-level and less effective boron tablets are now tightly controlled by the pharmaceutical industry, and may be restricted at any time through the infamous Codex Alimentarius regulations.

With this the medical-pharmaceutical system has safely defused any potential danger that borax may have posed to its profitability and survival.
